

TASKalfa 180/220 & 181/221

A3 MONOCHROME MULTIFUNCTIONALS

▶ print ▶ copy ▶ scan ▶ fax

EXCEPTIONAL PRODUCTIVITY FOR YOUR OFFICE

THE RIGHT MULTIFUNCTIONAL FOR YOUR TEAM

The new TASKalfa 180, 220, 181 and 221 are highly flexible multifunctional devices for documents up to A3 in size. Output speeds of up to 18/22 pages per minute (A4) and 8/10 pages per minute (A3) give them enough power to take care of your everyday tasks and answer your growing office demands. Their image resolution of 600 dpi with 256 greyscales means that copy quality is superb. Add optional print (TASKalfa 180/220), scan and fax functions for even greater flexibility or an additional paper cassette to keep the work flowing on larger jobs. Alternatively, choose the optional duplex unit for double-sided printing to reduce your paper costs and make these economical multifunctionals even more efficient and environmentally conscious. Whatever your needs, the flexibility, compact design and user-friendly operation of the TASKalfa 181, 220, 181 and 221 make them the right choice for your office.

EFFICIENCY FOR YOUR OFFICE

Excellent functionality, reliability and productivity – all in a stylish new design: that sums up KYOCERA's new TASKalfa range. The exceptional reliability of KYOCERA's long-life components forms the basis for this range of office devices. From the bottom cassette grip all the way up to the convenient control panel, everything has been designed and optimised to provide maximum functionality.

PRINT: QUICK DELIVERY, EXCELLENT QUALITY

The TASKalfa 181 and 221 come with the network printing function as standard, together with a convenient user interface that provides fast, intuitive control of all settings. The optional hard disk drive opens up a whole spectrum of possibilities such as the Virtual Mailbox or Private Print functions. So, whether you are copying or printing from the network, or accessing any of the other efficient options – easy access and fast job completion is assured. Should you wish to expand the capabilities of the TASKalfa 180/220 to include printing, these copiers can be enhanced with an optional GDI printing system. This gives these copiers the ability to function both as copiers and as printers so that you can print from any Windows based PC.

COPY: AS MANY AS YOU NEED, ANY TIME

Fast and efficient, these digital copiers offer a range of convenient functions that makes copying even more effective, regardless of whether it is just a single sheet or a multipage document. For example, the 'scan once copy many' function lets you save a copy and then produce as many copies as you need, whenever you need them. The layout mode lets you fit either two or four originals onto a single page - providing an excellent overview and saving paper.

SCAN: TURNING DOCUMENTS INTO DATA

The functionality of TASKalfa 181/221 can also be expanded to include scanning, opening up enhanced possibilities for both your document archiving and the electronic distribution of information. Scans can be sent directly to any PC in your company network, or attached directly to e-mails as either a PDF or a TIFF document.

FAX: SPEED UP YOUR BUSINESS COMMUNICATIONS

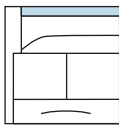

The TASKalfa 181/221's optional fax unit is a helpful addition when distributing information quickly is important. With the optional document processor, the TASKalfa 181 and 221 can read double-sided documents in both A4 and A3. Installed together with the scan unit, these devices can be used as a convenient network fax.

READY TO GROW WITH YOUR INDIVIDUAL NEEDS

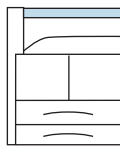

These highly efficient multifunctional devices are a great help in day-to-day office routines. Their durable components guarantee efficient, reliable operations. And with options such as additional paper cassettes, a document processor for double-sided input, a job separator or an internal finisher that staples up to 30 sheets, they can be tailored to your company's specific needs.

Base version

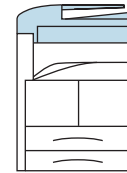

One or two 300-sheet cassettes and a 50-sheet multi-purpose tray provide a generous paper reserve.
